### 3.0 TRELLO - AGILE BOARD

#### 3.1 CARDS OF TEAM

Link can be used to open agile board online <https://trello.com/b/9yxkZNaM> .

### 4.0 TEAM COMMENTS

#### 4.1 INDIVIDUAL OPINION OF PARTICIPATION

C Human 28410629

I programmed the point of sale system, myself and Savannah made an arrangement in regards to her programming that I would be responsible for it. I helped make the database and finalise it for the project. Lastly I actively participated finalising and doing some of the documentation. I feel my participation amounts to a 100% for the project.

H Nel 26056984

I participated mostly in the documentation and helped with the GUI and some other parts of the project. I think I participated with an 80% amount of effort to the project.

PJ Brand 28633512

I did not contribute much with the programming. I mostly worked on documentation. I think I participated with 60% effort. I contributed: Physical data model entities creation, and data type specifications. I added the following to Word documents: Physical data model, Physical Process Model, Network Architecture, and Database schema.

S Fritze 29158710

Helped with GUI and database at the start of the project but worked on the documentation in the end. Arrangement was made with Coenraad with regards to my programming, we agreed that he takes my responsibility for the programming and I would deal with the documentation that had a lot of the work. Participated 70%
